

EFFORT MADE TO OUST DELEGATES

Clash Occurred in Convention of
the Electricians.

BUT MATTER IS SETTLED

MEMBERS OF ORDER ATTEND
BALL AT SALT LAKE.

The wires got crossed and there was a blue fire demonstration at yesterday's session of the International Brotherhood of Electrical Workers. The Chicago delegates were the fighting forces and the battle was between delegates from unions No. 9 and 134 of the Windy City. The former attempted to unseat the latter and for a time there was something of a riot. The attempt finally resulted in a failure and matters were settled satisfactorily to all concerned.

The fight arose over financial matters. That is, this was made an excuse to base the contest upon, but it is said that the cause of the attempt to unseat the delegates from No. 134, is that these men are known to be strongly in favor of a certain candidate for president, while the opposition is backing another man. The former is a strong faction and it is claimed that the disqualification was desired that the plans of the other union might be carried through.

Matter of Debt.
According to the information secured from a reliable source, union No. 134 owed the brotherhood about \$2,000. And it appears that there is some regulation by which an indebted union may be unseated in a convention if the obligation has been allowed to become overdue. The first day of the convention it came to the ears of delegates from No. 134 that No. 9 was going to raise the debt matter and attempt to disqualify all delegates from No. 134.

At the time, one of the leading delegates from No. 134 expressed himself rather freely about the opposition and is alleged to have said that they might go to a place that is hotter than Arizona in summer time. This delegate was surprised that evening to receive a summons from the general board of the I. E. W. to appear before them and answer to a charge of uttering a defamatory statement.

Yesterday morning No. 9 sprang the whole affair in the convention and wanted the delegates from the other union unseated. In order to head off such an action the delegation wired to Chicago for the money to pay the indebtedness. The bank communicated with wired back that the funds were there at the disposal of the board.

Wanted to Sell Coin.
This was a blow to the fighters, but with determination they continued the fight. It is said, and wanted the other side to show the cash. They then drew their forces from the battle field. However, the convention stood by the men of No. 134 and they were permitted to retain their seats.

After this matter had been settled affairs passed on quietly. The rest of the session was devoted to routine business. No session was held in the afternoon in order that the various committees might meet and transact their business so they would be free to attend the electricians' ball at Salt Lake last night.

All the delegates and a large number of their friends went to the lake and a most enjoyable evening. The pavilion was a brilliant blaze of electrical decoration. Music was furnished by an enlarged orchestra and dancing was participated in until the last train left.
